E 015-2

E 030-1

E 060-0.6

REGULATED DC POWER SUPPLIES

E 015-2 0-15 V, 0-2 A

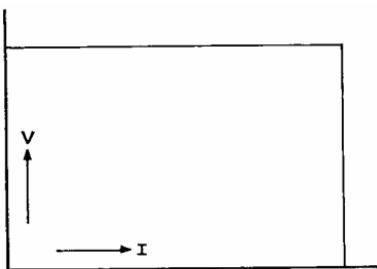

E 030-1 0-30 V, 0-1 A

E 060-0.6 0-60 V, 0-0.6 A

DESCRIPTION

The power supplies E 015-2, E 030-1 and E 060-0.6 have voltage and current regulation.

The voltage regulation changes sharply into current regulation if the setted current limit is reached.

These power supplies can be used as a constant voltage source with a limited current or as a constant current source with a limited open voltage.

Both limits are continuously variable.

The constant voltage/constant current design provides complete protection against all overload and short circuit conditions.

CONSTANT VOLTAGE OPERATION

Voltage control

10-turn potentiometer, range 0-100 %.

Remote programming

The voltage can be programmed by an external variable resistor of 0-5000 Ohm. Input on front panel. (10 k Ω for E 060-0.6).

Voltage regulation

5 mV for a + or - 10 % AC input voltage variation.

10 mV for a 0-100 % load variation.

Temp. coeff.

2.10^{-4} per °C from maximum output voltage.

Ripple voltage

0.1 mV r.m.s., 0.5 mV p-p.

Output impedance

Maximum 0.1 Ohm up to 100 kHz.

Recovery time

15 micro seconds for recovery to within 30 mV after a step load change from 10 % to 100 %.

CONSTANT CURRENT OPERATION

Current control

Single turn potentiometer, range 0-100 %.

Current regulation

0.3 mA for a 2 mA for a + or - 10 % AC input voltage variation.
2 mA for a maximum output voltage swing.

Temp. coeff.

$5 \cdot 10^{-4}$ per DC from maximum output current.

Ripple current

0.1 mA r.m.s.

REMAINING SPECIFICATIONS

Input voltage

220 V, 50 Hz. Other input voltages at special order.

Parallel and series connection

Special design enables parallel and series operation without precaution.

Ambient temp.

- 20 to + 45 DC (to + 35 DC for E 015-2 if used at 2 A below 10 V).

Meter

Meter with selector switch for voltage and current, accuracy 1.5 % f.s.

Finish

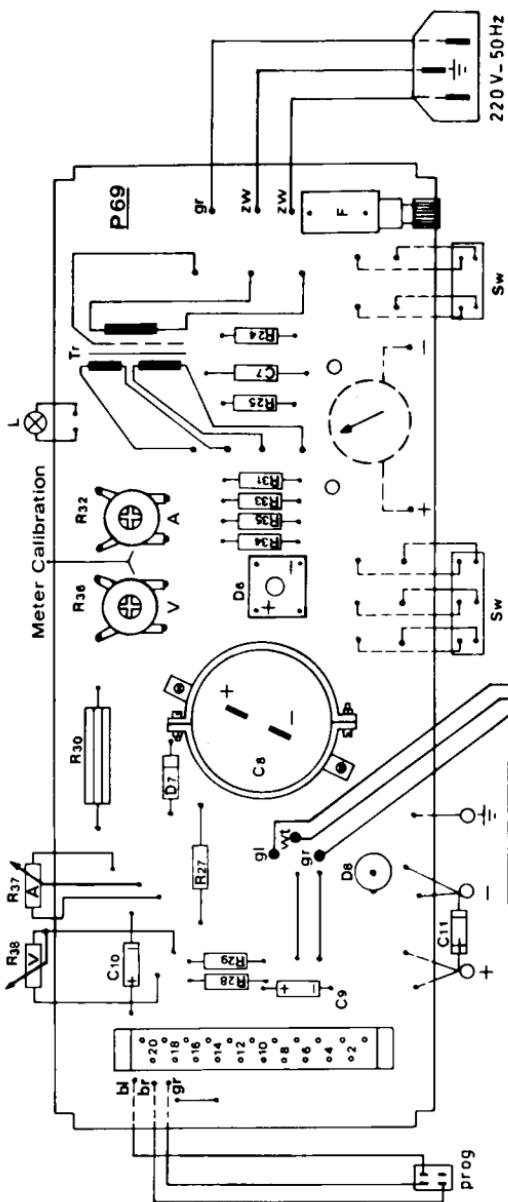

Light grey front panel with dark grey case.

Weight and size

2.7 kg 219 x 93 x 154 mm.

Two uncased units can be mounted side by side and with the addition of two H 6 brackets can be inserted in a 19" rack.
